FOR YOUR SAFETY WARNING

Risk of Fire, Consult a qualified electrician to ensure correct branch circuit conductor. Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.

General

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections, obtain the services of a qualified electrician. Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustration.

Installation Steps:

1. Shut off the power at the circuit breaker box.
Remove old fixture and all hardware from Outlet Box.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Take care not to lose any small parts necessary for installation.
3. Hold the mounting plate up against ceiling outlet box, aligning the outlet box two thread holes and adjust to the appropriate location, use a pencil to mark the anchor screw holes, remove the mounting plate, then drill holes and load plastic anchors. Attach the mounting plate to the outlet box with the two outlet box screws and anchor screws as shown.
The outlet box is not included.
4. **NOTE: make wires connections:**
****Attach fixture ground wire to supply ground wire using a wire nut or attach them to them mounting plate with a green ground screw.**
****Attach fixture white wire from lamp body to supply white wire or ridge wire from power source with a wire nut.**
****Attach fixture black wire from lamp body to supply black wire or smooth wire from power source with a wire nut.**
****Observing: positive wire with positive wire, negative wire with negative wire, ground wire with ground wire.**
5. Make sure all wire connectors are secured and do not easily pull off with the slight tug. After wires are connected, tuck them carefully inside the Outlet Box.
6. Take the magnetic LED illuminant and place it on the ceiling mounting plate, then plug it into the power plug that you connected to the power supply in the outlet box.
7. Can change color temperature by switch the button on the LED module.
8. Attach the assembled shade onto the ceiling mounting plate, aligning the top slots of shade with the mounting plates studs, rotate the shade until the studs are seat in the slots.
9. Your installation is now complete. Return power to the outlet box and test the lamp body.

can change color temperature from 2700K/3000K/3500K/4000K/5000K.
